### Prices:

The strongest team, the three best teams in the team sports and the three best individual athletes per sport are awarded prizes. In addition, there is a ranking of the individual sports per team. There will also be a categorisation into age groups. The three best teams qualify to participate in the World Corporate Games. The scores are determined by a point system that considers the team strength and the sports completed. It is therefore a relative ranking where everyone has equal rights.

## **Conditions of participation:**

Anyone may participate - regardless of age, gender or disability, who belongs to an organisation, company, authority or similar (e.g. university).
